

STANDARD BUILDING SPECIFICATIONS:

STRUCTURE:

Pillars, beams and reinforced concrete slabs.

FACADES AND DECKS

- Facades made in local stone, Werzalit, and window frames in artificial stone.
- Main facade: ground floor siding in Quarzite Grey Venis stoneware of 120 cm x 59 cm (47-24 x 23.22 in.).
- Back wall: siding in Pedraval multicoloured natural stone panel.
- Wall closures with ceramic blocks (brick), air chamber, insulating material and interior wall panelling in plasterboard.
- Terrace separation screens in Werzalit.
- Decks in reinforced concrete with insulating material, slate and Werzalit finish.

INSULATING MATERIAL AND ACOUSTIC INSULATION:

- Each slab contains Ditra-Sound insulation sheet, which provides a high level of noise insulation between floors, thus eliminating impact noise such as footsteps and falling objects. It also provides a high degree of thermal insulation. Spun glass and plasterboard will also be fitted in each ceiling.
- Dividing walls between floors and common areas will be fitted with a double spun glass layer of insulation with high sound absorption and great thermal insulation.
- Reinforcement in spun glass and polyurethane shotcrete will be fitted to facade closures.

INTERIOR PARTITIONS:

- Separation between residences and common areas of buildings with ceramic blocks, acoustic insulation and plasterboard.
- Plastered and painted staircase walls.
- Interior dividing walls in 98-mm (3.85-in.) plasterboard (double panel + insulation + double panel).
- Plasterboard dropped ceiling.

CARPENTRY:

EXTERIOR CARPENTRY:

- Aluminium window frames in the top-range Unicity series by the firm Technal.
- Treatment against thermal break to yield high thermal, acoustic and watertightness performance. Climalit 4+4/16/4 double-glazing.
- All shutters are motorised aluminium slatted roll-up security shutters.

INTERIOR CARPENTRY:

- Carré brand interior grooved passage doors, lacquered in snowy white and with chrome handles.
- All cupboards will be fitted with flat swing doors, also by the company Carré, featuring the same design and finish as the passage doors.
- Flat reinforced entrance door made in natural oak wood on the exterior, lacquered on the interior and with a high security lock.

FLOORS AND TILING:

- Smoke oak Berry Wood parquet floor in strips of 14 mm (or 0.5 in.) thick and 160 mm (or 6.29 in.) wide in all rooms except bathrooms and kitchens.
- Ochre colour or similar plain plastic paintwork.
- Balconies and terraces: flooring in 44 x 66 (1.732 x 2.59) Quarzite Grey Venis stoneware.
- Halls: in white crystal granite with Cleanmid-b Verimpex plush in separate entry hall and Podoltuard Heavy Verimpex plush in front of entrance doors.
- Staircases and landings: magnetic blue granite floors in housing areas and white crystal granite on garage floors.
- Main bathroom: Ceylon Ivory 43 x 65 (1.73 x 2.55) floor tiles by Porcelanosa.
- 31 x 90 (1.22 x 3.54) Detroit Noce and Ceylon Ivory wall tiles by Porcelanosa.
- .

Secondary bathroom:

- Porcelanosa Venis Trazos Blanco 33 x 33 (1.22 x 1.22) floor tiles.
- Porcelanosa Venis White Line and Venis Orange Line 33 x 100 wall tiles.
- Toilet: Marmi Dakar Caliza 43 x 43 (1.29 x 1.29) floor tiles by Porcelanosa and Dakar Caliza 31 x 90 (1.29 x 3.54) tiles by Porcelanosa and stainless steel profiles of 2.50 cm.
- Kitchen: Porcelanosa Venis Assur Pulpis 44 x 46 (1.73 x 1.8) floor tiles and Porcelanosa White Line 31 x 90 (1.29 x 3.54) wall tiles.
- Utility room floor tiles and wall tiles.
- Ceiling in plain white plastic paintwork.

KITCHEN:

- Furniture: laminate coated SieMatic101 SL10 designer kitchen with high and low cupboards in 61125 lotus white matt. Worktops will be in KENSHO-coloured Silerstone with a gloss finish.

Appliances: AW220 190 hood in stainless steel, IC 264.112 induction plate, BM 220-111 stainless steel oven, and stainless steel microwave, all Gaggenau, Siemens SN 65 M 032 EU dishwasher. Integrable Siemens fridge and freezer.

- ALUMETALIC Sublime 400-U Silgranit two-basin sink .

INSTALLATIONS:

The cold and hot water pipes will be in propylene. The wastewater drains will be soundproofed to prevent noise. All bathroom fittings will be equipped with their own stainless steel U-bend. There will be a central hot water production system with stainless steel inverters. Every residence will be equipped with a hot and cold water meter.

BATHROOM EQUIPMENT AND TAPS:

- Bathrooms will come with a Philippe Starck Duravit or Roca Sacha bath with Grohe taps, featuring automatic inverter and temperature limiter.

- The Duravit brand Starck shower tray will have its own Roca brand Quartz PE and Quartz LF screen. Tap fixtures will feature a Grohe Turbostat thermostat, compact cartridge with wax thermo element, tap flow limiter, insulating material, hand-shower fixture and Silverflex flexo bar.

- Bidets are Bathroom Foster by Duravit with chrome plated Grohe Allure model taps and automatic drainage.

- Toilets are Bathroom Foster by Duravit with bowl, lid and cistern.

- Vanity tops are Bathroom Foster by Duravit with Grohe Allure model taps.

ELECTRICITY:

- Jung 10 AX Model mechanisms in shiny chrome. All rooms will be fitted with their own phone, TV, and RJ-45 fibre optic Internet socket.

- The living room will be equipped with centrally operated light regulators and electric shutters.

- All apartments will be equipped with Mundolight halogen lamps and rooms will be lit with indirect light.

- Halo model Fermax digital video entry phone with television and concierge connection.

- The stairs and garage will be equipped with energy saving motion detectors.

- The boxes will come with fluorescent screens, socket and separate electrical panels for each residence.

SPECIAL FACILITIES:

- Closed circuit television installations for the surveillance of the building entrance and garage.
- UHF TV antennae.
- Optic Fibre Internet connexions with RJ-45 sockets will be installed in all units.

HEATING:

- Central heating with a diesel boiler and another energy-efficient Wiessman hot water boiler with a kcal/h meter for each apartment.
- Runtal Arteplano vertical radiators are installed in the living room and Runtal RA towel rails in all bathrooms.
- The main bathroom has under-floor heating. There are Roca DUBA cast iron heaters in all rooms that feature digital thermostat temperature control with normal and reduced functions.

GARAGES, BOXES, STOREROOMS:

- Interior boxes have lacquered aluminium Futur-Plex automatic doors with remote opening.
- Hörmann automatic swing section-doors on the exterior boxes and at the main entrance.
- Garage flooring and box finishes in multi-layer epoxy resin.
- Storerooms with painted concrete walls and Alameda ivory-coloured ceramic flooring.
